

## GETTING READY TO ADJOURN

Ohio Legislature May  
Decide to Stop Work  
April 28

## 166 BILLS ON CALENDER

Many May Remain After the  
Grid is Over—Suffrage  
Bill This Week.

Columbus, O., April 18.—There are 166 bills on the calendar of the house of representatives to be disposed of in two weeks. If the house decides to stop work April 28, which it likely will do, this means that there are a few more than a hundred bills which will not be passed. Of the 166 bills, 113 are house measures, which will have but little chance of passage even if they get through the house in a hurry, as the senate would not likely get to them; the other 53 are senate bills.

It is probable that this latter number is just about the number of bills which the house will pass, unless it commences to hold morning or night sessions. Twenty-five bills a week is a fair guess as to the number it will handle under ordinary circumstances.

There are two measures of general interest to be considered in the house this week which have been made special orders. One is the Elson proposition to amend the constitution to extend the franchise to women, and the other is the Mooney senate bill to call a constitutional convention. There is some opposition to the Mooney bill, as a number of house members are of the opinion that a convention would be a waste of money because the chances are much against the work of a convention being accepted by the people.

One of the first bills on the house calendar is the Hatfield bill providing for closing saloons on Memorial day. A similar measure has been introduced for two or three sessions past, but without tangible result, and there is little likelihood that this measure will be acted into law even should it get through the house.

A steering committee will probably be appointed this week to arrange a calendar of bills to be considered each day.

The following are a few of the more important bills now waiting on the house calendar for consideration:

The Hatfield bill prohibiting the sale of liquors on Memorial day.

The Buckingham bill, protecting certain birds, which it is said will make it illegal to sell the egret in Ohio, even if the supreme court should uphold the court of Stark county in the Abt case.

The Schaeffer bill, making it unlawful to furnish free lunch in a saloon.

The Kempel bill, making it impossible for a sheriff to hold a prisoner who has been convicted an unreasonable length of time in jail.

The Reed bill, to prevent railroads from placing limitations of restrictions on their tickets.

The Beatty bill making it a serious offense to spread a false report affecting the standing of a bank.

The Woods bill, providing that all persons who purchase pistols shall be registered, so that the police and the public may know who are carrying weapons.

The Grinnel bill, proposing to re-establish the direct inheritance tax.

The Cleveland bill, to appropriate \$35,000 for the expenses of the celebration of the victory of Commodore Perry on Lake Erie.

The Geer bill abolishing capital punishment.

The Mount school book commission bill.

The bill of Senator T. d. making imprisonment a part of the punishment in every case of bribery.

Senator Dean's bill to control the business of optometry.

The Hawkins bill to provide for nominations for presidential electors.

The Elson measure, proposing an amendment of the constitution to permit woman's suffrage.

The senate calendar is comparatively short and unimportant.

The Elson telephone merger bill will appear at the foot of Tuesday's calendar.

The general appropriation bill will come up as a special order at 2 o'clock Tuesday.

The Evans bill for the election of judicial officers on the separate and independent ballots will be at the bottom of Monday's calendar.

The more important measures on the calendar now are these.

The Matthews employers' liability bill.

The Finley bill, permitting precinct election officers to tally straight ballots.

The Patterson bill, providing for apathy inspection.

The Gottshall bill, authorizing the state board of agriculture to insure the state fair buildings.

The Phare bill, prohibiting the em-

ness and Fog—At Liberty  
Since Sunday Morning.

Warden Jones said that, fol-  
lowing a precedent established under  
the former administration, all the tow-  
ers are not always diled.

Because the lights were out and the  
morning was dark, rainy and foggy,  
it would have been next to impossible  
for the guards to see the men when  
they accomplished the escape.

Warden Jones said: "I do not at-  
tach any blame either to Guards Moore  
or Schooley or to the night captain. It  
was an affair that could happen under  
such conditions any dark night or  
morning."

When the lights went out guards  
immediately reported the escape to the  
night captain. A prisoner who slept  
at the hospital, and who is an elec-  
trician, was routed out of bed and he  
and several guards and Captain Ship-  
ley investigated the cause of the im-  
agined break in the electric current.

Finding no break, they went to the  
boiler room, discovered the open switch  
and at the same time learned of the  
absence of Driscoll and Potter.

Police departments in surrounding  
cities and towns and different railroad  
offices near Columbus were notified of  
the escape and descriptions of the men  
were furnished.

The men received a letter on Friday  
jointly from Jerry Brown, released a  
few days ago, while serving a sentence  
from Hamilton county for having bur-  
glar's tools in his possession.

In his letter Brown conveys the good  
news that the circuit court had re-  
versed the action of the common pleas  
court of Hamilton county, had granted  
him a new trial and he had been re-  
leased on a bond of \$2,000. Brown told  
of how good he felt on regaining his  
freedom, and ended his letter with  
"Boys, here's to you, and I hope to  
see you both soon."

As the letter was sent from Cincinnati  
on April 15, the day that Brown's  
bond was signed, and the men took  
French leave the day after they re-  
ceived it, penitentiary officials connect  
the facts and are of the opinion that  
the two men joined Brown. It is be-  
lieved here that Brown met the pair  
provided them with clothes, and they  
may be headed for Cincinnati.

U. S. CRUISER  
SENT TO CHINA

Amoy, China, April 18.—Under or-  
ders from Washington the U. S. cruiser  
Albatross is sent for Hay Kow to  
give aid if necessary in suppressing  
the anti-foreign "throb."

WILL OPEN MILLS.

Canton, April 18.—President Ed-  
ward L. Dwyer of the State Textile  
mills, has announced that work  
in a week and its which said down  
Thursday will be in full opera-  
tion, with a million men replacing  
the 100,000 employees who were  
discharged.

PRODUCT OF GOOD

New York, April 18.—The trial of  
the late John D. Rockefeller, Jr., in  
the case of the Standard Oil com-  
pany, was continued today in the  
supreme court.

ROCKEFELLER  
LOSES FIGHT

Albany, N. Y., April 18.—It has  
been decided by the supreme court  
that the late John D. Rockefeller, Jr.,  
lost his fight with the Standard Oil  
company, and that the company is  
entitled to a new trial.

B. & O. FIREMEN  
GIVEN RAISE

Baltimore, April 18.—B. & O. of-  
ficials agreed this afternoon to make  
substantial increases in the wages of  
their firemen and to grant the im-  
proved working conditions asked of  
the men.

## YALE MISSION IN CHINA; SCENES OF RIOTS AGAINST MISSIONARIES

CHINAMEN CARRYING RICE  
FOR DESTITUTE UNDER  
MISSIONARY SUPERVISION

FAMINE CAMP

Shanghai, April 18.—The rioting of  
natives in Shanghai, the capital of the  
province of Hunan, continues. Already  
three missions near the city have been  
destroyed, and attacks have been  
made on the Yale mission, where a  
number of English and American mis-  
sionaries have fled for safety. The  
buildings destroyed by the natives in-  
clude those of the Wesleyan China  
mission, the Methodist China mis-  
sion and the Norwegian mis-  
sion.

It is reported that the governor  
was injured during the attack upon  
the yamen, in which the missionaries  
had sought refuge. The yamen was  
set on fire by the rioters and destroyed,  
but so far as mission there was no loss  
of life. The missionaries and other for-  
eigners fled and were taken aboard a  
merchant steamer in the harbor. The  
British consulate and customs offices  
have been abandoned, and two more  
British gunboats are hurrying to the  
scene. The provincial treasurer has  
asked the government to supply rice to  
the natives in the hope of quieting  
them. The scarcity of rice, due to the  
cornering of the supply by Chinese of-  
ficials, was the chief cause of the out-  
break, which had long been brewing.

Secondly, the ill-feeling had been in-  
creased by an active anti-foreign propa-  
ganda in which the lives of foreign-  
ers were threatened. Another grievance  
lay in the fact that the British con-  
sulate building was constructed by  
compulsory labor.

With the count, Roosevelt visited  
parliament, where legislative mat-  
ters were almost entirely abandoned  
while a reception was held in his  
honor. In the evening the count  
gave a dinner for Roosevelt, at  
which the legislative leaders, Arch-  
duke Joseph and the Baron and  
Baroness von Hengemuehlen, were  
present. Despite the attempts of  
royalty and the nobility to claim all  
of the Colonel's time, he showed  
that he has lost none of his demo-  
cratic spirit by breaking away from  
his entertainers long enough to visit  
Francis Kossuth, the leader of the  
United opposition party. Kossuth  
is ill and unable to leave his house.  
He was overjoyed when the Colonel  
was announced. This visit was wholly  
unexpected and was a startling  
revelation to the Hungarians of  
Roosevelt's democracy. It served to  
increase the enthusiasm of the peo-  
ple. A three-hour auto trip over the  
city was the principal event of the  
afternoon.

Colonel Roosevelt took a slap at  
political reactionaries who sneer at  
all efforts at progress. In a speech  
in the Hungarian parliament this  
afternoon he said that the reaction-  
ary spirit is encountered in legisla-  
tures the world over and cited the  
opposition that he experienced while  
president of the United States. He  
studiously avoided, however, any  
reference to the present political  
troubles.

Pittsburg, April 18.—One thousand  
men struck this morning at the  
Pressed Steel Car company's Mc-  
Kee's Rocks plant because of the dis-

One man was shot in the arm and  
Police Captain Smith was felled with

morning.

government is granted the right to  
recover \$490,000.

HYDE TRIAL  
IS RESUMED

Kansas City, April 18.—Reed opened  
the Hyde trial for the state today. He  
said the state expects to prove that  
Dr. Hyde is a fortune hunter who  
tried to destroy the whole Swopo fam-  
ily by putting typhoid germs in their  
food and water. The defense entered  
a formal denial of all the charges.

GREAT CRUSH AT STATION

As Result Chief of Police is  
Trampled Upon and Receives  
Broken Leg.

(By a Staff Correspondent of the  
(By a Staff Cor. of the U. P.)

Budapest, April 18.—Col. Roose-  
velt's visit to Budapest has already  
cost the chief of police a broken leg  
and the enthusiasm of the Hungari-  
an populace continues through his  
stay there is no telling what the fi-  
nal count will be. The chief of po-  
lice was caught in last night's crush  
at the railway station, knocked down  
and trampled upon. He tried his  
best to save himself by telling the  
people who he was, but the great  
throng was bent on just one thing—  
getting as near Roosevelt as possible  
and had the chief been the emperor  
it is probable that the result would  
have been the same, but Roosevelt  
said the struggle at the station re-  
minded him of a New York depart-  
ment store bargain rush. He was  
literally raised off the ground and  
carried forty feet by the enthusiastic  
mob but emerged without a scratch.

The Colonel began a repetition of  
the old grind at 10:30 o'clock, at  
which hour he called on Archduke  
Joseph. Later he paid his respects  
to Count Von Hedeck, the gov-  
ernor, and was then taken to charge  
by Count Apponyi, an old friend  
whom the Colonel had entertained  
in Washington.

With the count, Roosevelt visited

## KOHLER'S PLAN TO BE TRIED

Indianapolis, April 18.—The Gold-

Chief Kohler of Cleveland was in-

FOUR KILLED  
IN A WRECK

Jackson, Miss., April 18.—Three  
train clerks were burned to death,  
engineer killed and two mail clerks  
injured when Illinois Central passen-  
ger train No. 2 was wrecked here to-  
day. The engine and five cars left the  
road and plunged over a 15 foot em-  
bankment.

The wreck took place but all the pas-  
sengers were saved. The fireman is  
dead.

Officials of the road declared this af-  
ternoon that the wreck was the result  
of an attempted robbery. Five plates  
had been removed from the rails for  
some miles at the point where the  
train left the track.

history, and he may come out in the  
open and hurl words of defiance at  
the master of the tariff bill and Pres-  
ident Taft.

# The Biggest Spring Business We Have Ever Had

Has forced our buyers to again visit the Eastern markets this season. An April trip to the market is very unusual for Dry Goods people, but we find our stock is demanding lines that our New York man alone cannot purchase. Consequently Mr. Mazey leaves today to spend the week looking over the market with our New York buyer. Thousands of dollars of spring merchandise will follow to meet the requirements of the enormous spring business we are having.

## HOUSE OF WORSHIP CROWDED TO HEAR FR. KRESS LECTURE

All available space was taken in Blessed Sacrament church last night. Father Kress gave the last lecture of the Apostolate series. He said in substance:

Not many years ago a certain faction of our American people pretended to believe that the Catholic church was a cancer in the fair blossom of American civic life. The human family in America, as well as in Europe, seems to have its periods of madness, its summer dog-days, so to speak when it runs about, foaming at the mouth, and looking for something to bury its teeth into. There was such a period in colonial days, when every religious body, with the exception of Catholic Maryland, seemed bent on annihilating every opposing creed; there was another just before the War of Independence, when Catholics alone were made the victims. The same distemper appeared in a more violent form some 50 years later and was diagnosed as "Know-nothingism." It was not stamped out completely, for it reappeared some forty years later, and though it was called "A. P. A.-ism" it is certain from its symptoms of frothing and threatening growls that it was the same old dog-days' madness. The same disease broke out among a few of our Lutheran brethren two years ago and among a portion of our Methodist friends within the month. Not much harm was done at any time, for a few pellets of enlightenment from the medicine chest of Dr. Common Sense, cured the red-eyed products of their worst symptoms.

What had Clairborne, or John Jay, or the Know-nothing, or the A. P. A., to fear from the Catholic church? The pendulum has swung to the other end just now; the men entrusted with the country's administration profess to see in the Catholic church their strongest ally for the preservation of quiet

and the continued triumph of right principles. It will be admitted, without question, I am sure, that her priests know the Catholic church, of which they are part, her teachings, her government, her spirit, and we declare unhesitatingly that not only is the Catholic church not only not a menace to the American republic, but that she is the hope of America's future and an inspiration to the highest American ideals.

An inquiry class will be formed this evening at 7:30 o'clock. All who desire to make a systematic study of the Catholic religion may avail themselves of this opportunity.

## OFFICERS RAID NEARBEER SALOON

Whisky Was Found at Frank Spring's Place and the Proprietor Was Arrested and Fined.

Chief of Police Zerbis and Officer Sutton, Swack and Burke worked the search and seizure law on the alleged near beer saloon of Frank Spring, on Cass avenue, Sunday afternoon, and a quantity of whisky was confiscated and Spring was placed under arrest. This morning he pleaded guilty when brought before Mayor Atherton and was fined \$20 which he paid.

Some reports had been made to headquarters about a place Spring was conducting, so Sunday afternoon the police made a quiet trip to the saloon and raided it. Just as Chief Zerbis and Sutton entered the door, Spring attempted to dump some whisky from a granite

pitcher into the sink trough, but was prevented.

The pitcher held about two-thirds of a gallon of liquor which was taken as evidence and Spring was ordered to appear before Mayor Atherton this morning. When his case was called he pleaded guilty and was fined.

## TROOPS

MAY TURN TRAITORS AND JOIN RIOTERS AT CHANG SHA, CHINA—AMERICANS ARE SAFE.

Pekin, April 18.—There is grave fear here today that the government troops sent to replace the traitors who joined with the rioters at Chang Sha and burned all the foreign buildings, will follow the example of their predecessors and turn traitor. If they remain loyal, however, the worst of the uprising is considered over.

An early report that three Americans were drowned was false, the victims being Spaniards. The leaders in yesterday's disturbance have been executed by the authorities.

# STATE CIRCUIT NOW ASSURED

REMARKS WILL BACK LIMA BUT  
NOT AS A FARM AS IT WAS  
FORMERLY.

Other Cities Are Ready and the Players  
Have All Reported to the Various  
Managers.

All doubt as to the starting of the  
Ohio State League has at last been re-  
moved, and everything is favorable for  
the opening of the summer campaign.  
Columbus will back Lima, although  
that city will no longer be the farm  
of the Senators for Akron has been  
chosen in its stead. At Newham will  
be the playing manager of the club  
and he reported in Lima today with a  
good squad of men.

Manager Mike Roach has also re-  
ported at Portsmouth and by this time  
his recruits are showing their quali-  
ties at Millbrook park. In the selec-  
tion of Roach to manage the Shomakers,  
the directors of that club have  
made no mistake and he will doubtless  
put a clever aggregation in the field  
to battle for the flag.

Manager Lewis at Marion has had  
his men at work several days and is  
satisfied with the way the men are  
performing in the diamond and in the  
garden. Several of his old squad will  
be put back with him and in this re-  
spect Marion will be alone in the  
league for most of the other cities  
have entirely new teams.

At Lancaster Manager Al McClintock  
is working with his recruits and  
the record squad of the league reported  
there for the tryout. Over two score  
men were signed and from this bunch  
McClintock certainly ought to pick out  
a gang of live ones. The correspond-  
ents from Lancaster are satisfied and  
say that the only trouble will be in  
picking out the best from an all good  
crowd.

Chillicothe also gets away from the  
post in the training season work to-  
day, and Manager Robinson has a large  
gang of tossers to look over. Nearly  
30 players have signed contracts to  
play in that city and the men are be-  
ing worked out at the new plant of the  
club, which will be one of the best in  
the circuit when completed.

With the salary limit placed as it  
has been, and with competent men to  
guide the clubs, there is no reason  
why baseball, and good ball, too  
should not be a paying proposition this  
season. In Newark more factories are  
going than last year consequently  
more money is in circulation, and the  
men who are making the money are  
the ball fans. If a position on the  
team is weak a player should be pur-  
chased if necessary, for it has been  
shown here that it doesn't pay to  
"crab" when it comes to the game.

Owner Mead of the club knows this  
and Manager Bergdahl has been in-  
structed to do all in his power to put  
a good team in the field, and for this  
end he will put forth every effort.

There will be a meeting of the offi-  
cials of the league at Columbus tomor-  
row, and then the schedule will be  
passed upon. Two were drawn up  
one for a six and the other for an  
eight club circuit, but as Lima and  
Huntington are more than likely out  
of the running this season, the league  
will be composed of six cities, all good  
ones.

Newark will open away from home  
again this season and the fans will not  
have an opportunity of seeing a regu-  
lar league game here until May 11,  
when the teams return home after a  
short jaunt of six days. The season  
will probably be opened in the usual  
manner with an auto parade and a  
band concert at the ball grounds.

## SPLITS A GLOVE WITH FAST BALL

Columbus, O. April 18—Columbus  
players who have been in the big  
league and who have batted against  
some of the best pitchers in the game, ac-  
cording to Pitcher George Kaser of the  
Senators, with having as much speed  
as any twirler in the game. He proved  
that his team was above the average  
Friday, when, while warming up be-  
fore the game, he split the glove in  
Catcher Martin's glove with one of his  
fast balls.

Anyone who has seen a reputation,  
catcher's glove knows the thickness  
of the leather used in the glove and  
the mitt was almost new as Martin  
purchased it just previous to reporting.

# NEARLY 150,000 SAW OPENINGS

New York, April 18—The figures  
compiled show that the opening of  
the baseball season of 1910 was  
one of the most remarkable in  
point of paid attendance. The total  
attendance in National and Amer-  
ican leagues was 144,224. Of this  
number the American drew 79,221  
and the National drew 65,003. The great-  
est crowds saw the American  
league games in New York and  
Chicago where those persons at-  
tended each game. The smallest  
crowd was in Boston, where but  
1,100 persons turned out.

# KEEP UNION MEN FROM THE GAME

Boston, April 18—Boston de-  
clared today that it would not  
admit any union men to the game. The  
Boston of the International Brotherhood  
of Teamsters, refused to allow a  
party of the workers to attend the  
city's ball game at Fenway park.  
Boston met a wagon of the company  
coming to the game. He ordered  
all union men in the party to descend.  
All obeyed except two foremen of the  
team who went.

# DIAMOND WAS SOFT

AND NO GAME WAS PLAYED AT  
WEHLE PARK ON SATURDAY  
AFTERNOON.

Recruits Are Working Hard Today—  
The Chairs in the Grandstand Are  
All in Position.

Newark was disappointed Satur-  
day in the scheduled game between  
the Whites and Blues, which could not  
be played at Wehle park on account of  
the condition of the diamond. The rain  
of Sunday morning soaked the mud  
for the Newark field and it was dis-  
cussed as to how to permit playing  
the game between the recruits. The  
first expedient was to place a "fence"  
of the recruits' chairs, the medium of  
the contest, and this same thing was  
in the mind of Manager Reynolds, but  
the sitting up was prohibited for the  
time being.

A good many people have seen the  
diamond's work out, and they have  
been favorably impressed with the re-  
sult shown, both on the field and with  
the stick, and if the men turn out as  
their actions predict, Manager Reynolds  
will feel well satisfied and the fans  
will have no cause to complain.  
Most of the recruits have had experi-  
ence in baseball, and it wasn't a case  
of green in the dark when the situa-  
tions were placed on Newark's con-  
trasts.

The diamond has not been work-  
ed to any extent this spring, and is natu-  
rally soft, but it will be placed in  
condition at once and will be ready for  
the first live-ball game scheduled  
for next Friday, Saturday and Sunday.  
Then the fans will have their oppor-  
tunity of seeing the squad in action.  
During the week games will be ar-  
ranged between squads and the men  
who show the best in these games will  
be chosen to go against the O. P.  
hoppers.

The chairs have all been placed in  
the grandstand and Groundkeeper Mc-  
Ginnis was at work Sunday afternoon,  
cutting the grass in the field. It is  
planned to build a stairway into the  
press box from outside the grandstand  
and by removing the ladder which  
has done duty as a mode of entrance  
into the presser's apartment, the view  
of the spectators will not be obstructed.

Since they did not have to work  
Sunday afternoon, the players spent the  
time as they pleased. Many of them  
walked into the city, while others  
played catch and kept their arms limber,  
and others watched a game of  
ball in Riegel park. The men were  
disappointed that they could not get  
into ball logs, but they are working  
hard today to make up for the Sunday  
layoff.

# STATE LEAGUE MEETS TUESDAY

President R. W. Head of the Ohio  
State League has notified the local club  
that a meeting of the league will be  
held at Columbus on Tuesday, April  
19th, at which time a schedule for the  
coming season will be adopted.

# THIS IS IMPORTANT.

W. A. Erman & Son Desire to An-  
nounce That They Are the Agents  
for Thompson's Barosma, the  
Money-Back Kidney and Liver  
Cure.

There are hundreds of people  
young and old, right here in New-  
ark, who are taking medicines for  
various ailments, who do not even  
suspect that the kidneys are to  
blame.

These sufferers do not know that  
in all probability their kidneys are  
all clogged up, are inflamed or con-  
gested, and are unable to properly  
filter the impurities from the blood.  
It is the kidneys that keep the  
blood pure, and if the kidneys are  
not in good condition, disease of or-  
gan of the body will surely  
develop.

Thompson's Barosma will cure an  
disease of the kidneys, or W. A. Er-  
man & Son will give you your money  
back.

Don't say, dear reader, that you  
kidneys are all right, for if you suffer  
from lame back or side, from  
backache, dizziness, pains that com-  
and go as quick as a flash, or if you  
have that "all-in-the-back-of-the-head"  
feeling, then your kidneys  
are clogged up, and you need Thomp-  
son's Barosma to thoroughly cleanse  
renovate and purify them.

If you are in ill-health now, and  
are not absolutely certain of the  
cause, get a 50 cent bottle of Thomp-  
son's Barosma at W. A. Erman &  
Son's today. It will tone up your  
kidneys, liver and bladder in a week.  
It is the best investment you can  
make. It is worthy of a trial on our  
guaranteed plan. Ask for Thomp-  
son's Barosma. The dollar bottle con-  
tains more than twice as much as the  
fifty cent size.

# SO-CALLED "SNAKE HOLES."

The holes commonly seen in the  
fields are not "snake holes," though  
commonly called such. They are  
made by field-mice, shrews, and  
mole, often by the larger insects,  
and it is very seldom that snakes  
even take refuge in them. Few  
snakes actually dig holes. They bur-  
row in soft ground—the subterranean  
species; but these live, as a rule,  
in soft, yielding soil.—From Nature  
and Science, in May St. Nicholas.

From the days of Joseph down to  
the only well populated country which  
had enough grain to satisfy its own  
consumers was Egypt, rich beyond  
the record of any other soil this side  
of Paradise.

# SHORT NOTES FROM OVER THE CIRCUIT

It is up to the fans in Chillicothe to  
select a name for their club, or some  
interesting sport writer might look  
after the choosing.

H. A. Meade of Springfield, Ill., will  
probably be the captain of the Chillicothe  
team this season. He is a husky  
player and said to be a good pitcher.

Red Kline, formerly with Portsmouth  
and Lima, is trying out this season  
with New Castle of the O. & E.  
league. Chas. Scherer, first sacker for  
Portsmouth, has been sent from the  
New York Glants to Toronto of the  
Eastern league.

Dick Staley, first sacker for the Mar-  
ton Diggers, first season and now trying  
out with Scranton, Pa., was written  
Manager Lewis that he wants back at  
Marion if he fails to make good in his  
new berth.

Emmett Kelley and Jay Wiloughby  
have reported to Manager Lewis at  
Marion and a great load has been  
lifted from that man's shoulders by  
their coming. Kelley threatened to  
hold out for some time, but finally de-  
cided to work when he found that more  
money was not forthcoming from the  
Digger till.

Ladies aren't wanted in the Mans-  
field grandstand this season, accord-  
ing to the Mansfield field, which  
prints the following from "Ladies"  
will be admitted to the grandstand for  
no minutes. The general admission for  
children will be 15 cents.

Mansfield will have two ladies' days  
each week—Monday and Friday, and  
the grandstands will be free to them  
on those days.

Manager McClintock has begun the  
weeding out process, and five aspirants  
to team honors were dropped Saturday.  
Mac will have to go some to get rid of  
some 24 men.

James Dunnigan, son of the former  
business manager of the Lima club,  
will probably be the manager there  
this season, as the elder Dunnigan has  
other things to occupy his time and  
attention.

Portsmouth is trying to book several  
exhibition games for Millbrook park  
the next two weeks. A second team  
from Columbus may be secured and  
several city league teams will play. A  
short trip will also be made to Hunt-  
ington to play the Independent Moun-  
tain State team.

President Read is said to have a  
good bunch of umpires signed for the  
season's work. Some of the men were  
recommended to him by umpires in the  
major leagues.

Second Baseman Sandy Murray and  
his wife left Saturday for Terra Haute  
where Sandy will join the Central  
league team of that city. His work  
with them last season was very satis-  
factory and Sandy made good without  
trouble.

# KENYON WON FROM DENISON

Gambier, O. April 18—Kenyon won  
the opening game from Denison on  
Benson field Saturday, 8 to 1. Kenyon  
got away in a four run lead in the first  
inning and after that the Baptists were  
unable to come close. The hitting of  
both teams was about on a par, but  
the local hits came when they were  
most needed and helped out in the bad  
places.

Cardillo was especially good with  
men on bases and pitched a masterly  
game. The visitors were ragged in  
both infield and outfield and were eas-  
ily outplayed in this respect. A ma-  
jority of Kenyon's runs came as the  
result of Denison's misplays. Holden  
laughed a good game for the boys, as  
did Hardy, the Kenyon recruit.

# WON IN THE NINTH.

Christy Mathewson, the famous  
pitcher of the New York Glants, has  
made the greatest hit of his career  
with his great baseball story, "Won  
in the Ninth." It's more than a home  
run and the fans from 8 to 50 are de-  
lighted with it. "Matry" has written  
a real book on baseball. One chapter  
tells of selecting and training the  
team, another in current vernacular  
the style of reporting a game for the  
college paper. Another chapter takes  
up the "making of a fan" while "In-  
side baseball," "signal work" etc., have  
their share of attention. The book was  
published by E. A. Bodmer Co., 417  
High avenue, New York.

## In Woman's Realm

Miss Genevieve Yates delightfully  
entertained the members of the  
Philomenian club Saturday afternoon  
at her home in Seventh street.  
The afternoon was pleasantly spent in  
needle work, after which dainty re-  
freshments were served by the host-  
ess. The next meeting will be with  
Miss Ocie Miller.

Announcement is made of the en-  
gagement of Miss Marie O'Brien,  
daughter of Mrs. Martha O'Brien of  
Hudson avenue, and Mr. William J.  
Fitzgibbon.

The banns were announced in St.  
Francis de Sales church Sunday  
morning and the wedding will be  
solemnized at the church Wednesday  
morning, April 27, at 9 o'clock.

The home of Assistant Superintendent  
F. G. Chius of the Ohio Electric  
railway was the scene of a very en-  
joyable affair Friday evening, when  
Mrs. Chius entertained with a seven  
o'clock dinner in honor of Mr. and  
Mrs. Ferris Peck of Springfield, O.  
Mr. Ezzell is assistant superintendent  
of the Ohio Electric at that place. An  
elegant menu was served and covers  
were laid for eight.

The out of town guests were: Mr.  
and Mrs. Ferris Peck of Springfield,  
Superintendent F. J. Moore and Mrs.  
Moore of Columbus, and Messrs. Ar-  
thur Bland and Ralph Rato of the of-  
fice force at Columbus. Mrs. Chius  
was assisted by her sister, Mrs. Edna  
Chius.

The meeting of the Monday After-  
noon Sewing club will be held on  
Wednesday afternoon of this week at  
the home of Mrs. Frank Webb in Hud-  
son avenue.

Miss Catherine Sedgwick enter-  
tained the members of the Tr Alca  
club at her home in Hudson avenue  
Saturday evening with a dinner  
party. The table was arranged with  
appetizing and delicious and a  
delicious two course menu was  
served.

The members for whom covers

were laid were: Misses Ruth Winter-  
mute, Grace Wilson, Corinne Miller,  
Leontine Moore, Lenora Phillips,  
May Mahola, Louise Elliott, and  
Mary Follett.

Miss Ruth Frazier was a guest at  
the Tri Delta sorority dance of Ohio  
State University at Goodale Au-  
ditorium in Columbus on Friday even-  
ing.

Miss Agnes Avey will entertain a  
few friends informally this evening at  
her home in Commodore street, hon-  
oring Miss Marie O'Brien, who is to  
be a bride of this month. The even-  
ing will be informally spent and a  
number of Miss O'Brien's friends will  
be present.

Mrs. W. A. Dorey is introducing  
Mrs. G. F. Milliken of Boston, Mass.,  
to a number of guests this afternoon  
at her home in Hudson avenue. The  
event is in the nature of an afternoon  
tea, the hours being from three to  
five o'clock. Those receiving with  
Mrs. Dorey are Mrs. Milliken, Mrs.  
Fred King, Mrs. Charles Hollander,  
Mrs. Herzog and Miss Rita Milliken.

Miss Ruth J. Clark, daughter of Mr.  
and Mrs. James Madison Clark, and  
Mr. Edgar W. Seeds, son of Mr. and  
Mrs. E. W. Seeds of 55 Parsons av-  
enue, will be married June 8, in the  
Episcopal church of the Good Shep-  
herd. Rev. C. E. Evers, the pastor,  
will officiate. Miss Clark is a Pi Beta  
Phi sorority girl and Mr. Seeds is a  
member of Pi Delta Theta sorority.

Miss Clark was formerly a resident  
here and she has many friends in the  
younger social circle, who extend best  
wishes.

**SHACKLES—BECKER.**  
The marriage of Miss Grace  
Shackles and Mr. Lorin I. Becker of  
Newark, will be solemnized Thursday  
evening at 8 o'clock at the residence  
of Mr. and Mrs. A. W. Shackles of  
North Fourth street, the former be-  
ing brother of the bride-elect. In the

presence of the immediate relatives  
and a few friends. The ceremony will  
be performed by Rev. C. N. Church,  
pastor of the First M. E. church. The  
bride-elect is a daughter of Mr. and  
Mrs. Charles Schuchles of Whigville,  
Noble county. The principals to this  
affair are well known in this city.  
—Cambridge Times.

**NEFF—TURNER.**  
The wedding of Miss Susan Turner  
of Cambridge, and Mr. Frank Neff of  
Coshocton, was solemnized Tuesday  
afternoon at the home of the bride's  
aunt, Mrs. Carrie Jenkins in Coshoc-  
ton. Mr. Neff is a well known B. &  
O. fireman.

**HALL—HALL.**  
On Saturday afternoon at four  
o'clock Rev. E. S. Dillon united in  
marriage Mr. Will L. Hall of Gales-  
burg, Ill. and Mrs. Mary R. Hall of  
this city. The couple were accom-  
panied by Mr. and Mrs. Charles  
Flecher. Mr. and Mrs. Hall will  
make their future home in Massillon,  
Ohio.

**Y. M. C. A. NOTES**  
\*\*\*\*\*

Hundreds of fathers, mothers and  
boys packed Taylor hall at the Y. M.  
C. A. meeting yesterday to hear Mr.  
Jesse Vickery of Bellevue on "The  
American Boy." Preceding the ad-  
dress the informal half hour of sing-  
ing, moving pictures and solos was  
very interesting as an exhibit of what  
is being done to cultivate good morals  
among the boys who come. A saxo-  
phone solo by Paul Hawkins, New-  
ark's young and brilliant soloist and  
patriotic number by the boys' Glee  
club led by Prof. Nielson, were both  
highly applauded.

Mr. Vickery gave a fine address  
showing the work for boys actually  
being done in North America among  
boys and often by boys for the build-  
ing of Christian character. He showed  
the social life, the gymnasium, the  
classes and clubs of boys that the Y.  
M. C. A. organizes and something of  
the effect among the boys in their life  
at home, at school and at work. He  
showed some pictures of the Newark  
boys that were very interesting. Ev-  
ery one was enthusiastic about the  
meeting.

The boys' meetings will continue  
for a number of weeks not being held  
at two o'clock each Sunday. Admission  
is free and any boy 10 years or over  
is welcome.

Wednesday of this week there will  
be a meeting of mothers of boys at the  
Y. M. C. A. and Dr. J. A. Mitchell will  
make a talk on the physical side of  
boy life.

Negotiations are proceeding be-  
tween Italy and France with regard  
to a proposed tunnel through Mont  
Blanc.

## SUPPERS IN GREAT FAVOR

The suppers given by the ladies of  
the First Presbyterian church on Sat-  
urday evenings are growing in popu-  
larity. The favor they have attained  
can be gleaned from the report filed  
by Mrs. John Moore which showed  
that since May 10, 1928, over ten  
thousand people have been served.  
The report did not consider those  
served Saturday night, which was the  
largest number yet present, 355 sup-  
pers being prepared. The ladies are  
to be congratulated upon the efficient  
way they are supporting the church  
building movement.

## ODD FELLOWS OF JOHNSTOWN EXEMPLIFY WORK

Granville, April 18.—Quite a num-  
ber of Granville Odd Fellows went up  
to Johnstown Saturday night to at-  
tend a meeting of Johnstown lodge of  
Odd Fellows. There were in the neigh-  
borhood of three hundred Odd Fel-  
lows present at the meeting from all  
over the county, and a splendid time  
was had. The celebrated Seacore  
team from Brandon was present and  
exemplified the first degree in a man-  
ner that befitted the occasion. The  
only thing to mar the occasion was an ac-  
cident that befell Messrs. Harry Rein-  
ham and Ed King. These gentlemen  
started to drive to Granville, and  
when about one mile west of the vil-  
lage the horse plunged down a steep  
embankment carrying the buggy  
down with it. The buggy was over-  
turned and the occupants were  
thrown out. Fortunately neither was  
hurt and the only damage done was  
the breaking of the buggy top.

## LIVELY SCRAP IS IN SIGHT

Washington, April 18.—The an-  
nual meeting of the Daughters of the  
American Revolution opened here  
today with promises of lively times  
between the stewards and the in-  
surgents, who are "after the scalp"  
of Mrs. Matthew T. Scott, presiding  
general, whom they claim is a regu-  
lar Joe Cannon, appointing all com-

mittees from among her personal  
friends.  
An attempt by President Scott to  
draw out President Taft again on the  
Woman's Suffrage question failed to-  
day when he omitted any reference to  
the question from his welcome speech  
to their convention.

# VISIT OF THE HALLEY COMET.

(FOURTH ARTICLE)

Back through the centuries—Halley's "lucky guess."—When the comet came to stay—Halley's prediction of its return—How a farmer became a Dr. Cook to nineteenth century—The comet 246 years before Christ—The broken dates since 1606 A. D.—The comet's part in the excitement of 1682 and 1683—The comet's church bells still ringing.

(Copyright 1909 by Frederic Campbell.)

Halley's comet spends a very small fraction of its time within human view. If it be one of the triumphs of modern astronomy that it has accurately traced its course throughout its complete round of seventy-five years, it is little less of an achievement to follow it back through the centuries to the times before the Christian era.

It must not be thought, from the name that it bears, that Sir Edmund Halley was the first ever to see this stupendous object, much less that it came into being or first visited this part of the universe in his day. Halley saw the comet in 1682, and he died in 1742, sixty years later, and sixteen years before the comet's next appearance. But the comet was an old affair when he looked upon it; and when he successfully solved the problem of its identity with a number of historical comets, and the periodical character of its returns to our sky, it had been making its round of space for ages.

That the comet originally entered

had been seen in 1531 and 1697; and here were two intervals of so nearly seventy-five years each that he wondered whether these three were not one and the same comet returning with a certain regularity. His suspicion was converted to conviction, when he examined the courses of these three and found them to fit into each other so nicely that it was impossible any longer to believe that they were three; they were really one and the same.

It is strange that he did not go back still further to 1456, whose comet so shook Europe with terror and dismay, for here was the same interval, and he could not be ignorant of that visitation. He might also easily have included the famous comet of 1606 in his survey; but it seems that he did not. But in the three dates of 1531, 1697 and 1682 he felt that he had sufficient data to warrant a prediction. And this he now ventured upon—namely, that in the year 1758 there would be a fresh visit of a comet already seen at least three times; and so interested was

centual prediction of the return of a periodical comet.

We have mentioned the fact that Halley strangely overlooked other dates that he might have included in his series, and that the comet has been traced back to the times before Christ. The gaps are not all filled in the earlier dates; but this is doubtless due to the want of records in an unscientific age. Beginning, however, with A. D. 1066, not a date is missing, although, owing to the disturbing in-

Saturn, one of the planets affecting the comet.

fluences of the planets passed by the comet in coming and going, the intervals differ from 74½ to 76 years. The earliest date which we possess is B. C. 240. Our next date is 606 years later—namely, A. D. 451. Then comes 760. Now we come to an unbroken series, beginning with 1066, the date of the Norman invasion of England under William the Conqueror, when the comet was supposed to be the symbol of his all-conquering sword, and people stood against at the celestial spectacle. The comet repeated its visits in 1145, 1222, 1301, 1378 and 1456.

It probably never produced such consternation as in the latter year. No one imagined that this was merely the return of an old visitor, absolutely no more strange than the return of new moon each month or of the planet Mars to opposition every two years. The popular mind was already in a ferment. The Turks had taken Constantinople and were threatening to overrun Europe, and everything seemed ripe for destruction, when the comet put in an appearance, confirming all fears, and seemingly depriving men of what little wit they had left. It was then that, according to tradition, Pope Callixtus issued his famous bull against the Turk, the devil and the comet. He at least ordered special prayers to be said and the church bells to be rung at noon, which practice continues to this day. Terrified by the nightly apparition which endured for months, the people poured their wealth at the feet of the church, imploring petitions that Heaven might save the world from its doom.

In 1531, the comet, almost forgotten, was again on exhibition. Following that it was seen in the years 1607, 1682, when Halley viewed it; 1758, when it returned according to Halley's prediction, and 1835, when it was last seen, and by some few who survive and are about straining their old eyes to see it again. Now it has just been freshly sighted, and we begin to see it with the naked eye. But the months of its glory and splendor are now close at hand.

Such is the history of this famous comet. We may say that it will next

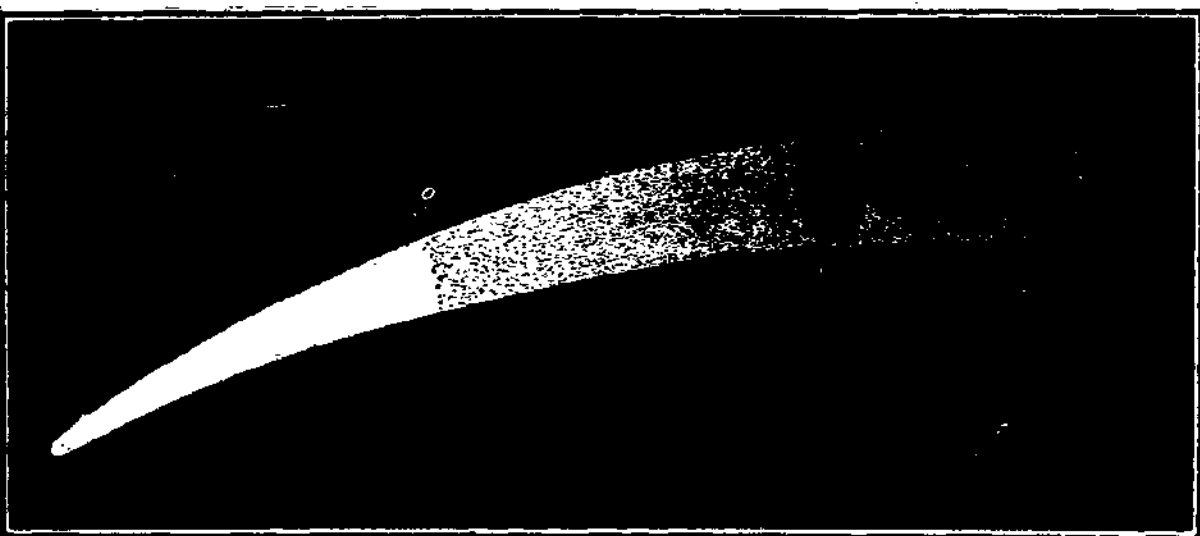

he in the result of his prophecy, and so confident that he could not live to witness it, that he frankly expressed a hope that the world would recognize the monster on its return trip. It was on Christmas night of the year 1758, and henceforth this was Halley's comet; for he had made himself and the visitant famous by a first suc-

our solar system from distant regions of the universe is practically certain. Once within our confines it was captured, as is supposed, by Neptune, our most distant known planet, and its speed became so reduced that it was compelled to adopt the elliptical form of orbit which it now travels. Now, when this happened no one can know or guess. It may have been

within the history of mankind, or ages before. All we know is that the comet, like the moon, is here, and that it has been here for a long time. Some of the greatest discoveries have grown out of what are called "lucky guesses." Halley had a strong suspicion that the great comet of 1682 was no stranger. He was familiar with the fact that remarkable comets

Saxony farmer, George Palitzsch by name, having a love of the stars and a small telescope, became the Dr. Cook to steal the prize from the tolling Pearlys of his day, and sighted the monster on its return trip. It was on Christmas night of the year 1758, and henceforth this was Halley's comet; for he had made himself and the visitant famous by a first suc-

appear about 1885, and some few children who see it now will again see it in that year. So far as we know, at intervals of about seventy-five years, Halley's comet will continue to be the wonder of earthly spectators till time shall be no more.

## A NEW USE FOR A NEW LIGHT

(Johnstown, N. Y., Republican.)

One of the largest cigar manufacturing firms in the world has solved the hitherto impossible task of packing cigars by night under artificial light. Previously this work could only be done in the daytime, and then only under the most favorable conditions. The men trusted with the shading, subsiding and packing of cigars worked only a few hours of the day. Their benches were located near large windows on the north side of the factories, away from the brilliancy of actual sunshine, and on cloudy days, or when it began to get the least bit dusky, the work had to be suspended altogether. This inconvenience was one of the most serious drawbacks to the cigar industry. The factories would work night and day, if necessary, but the sorting and grading of the finished product before shipping could only be done in the pure light of perfect day.

In one of the large cigar factories in Columbia, Pa., only a few weeks ago the work of packing the finished cigars was far behind, owing to intense smoke from the great forest fires,

which practically hid the sun. The superintendent of the factory was discussing his troubles with the superintendent of the electric light station, which led easily into a talk on the merits of the new metal filament electric lights. As a result of this argument an illuminating engineer, from the General Electric Company's lamp works at Harrison, N. J., was called in and asked to make a series of tests in the factory, utilizing the new lamps, to see if any of them were suitable for the difficult task of sorting and packing cigars.

All the new types of electric lights which have been developed in the past few years were given a thorough test, but it was not until the new Tungsten electric incandescent lamps were used that the experiment showed any signs of success. A number of the new Tungsten lamps were suspended directly over the sorting tables. They gave a pure white light, which is very closely allied with actual sunshine, and every degree of shade and tint stood out as clearly as though it was in sunshine. After several hours, when in just one of the exports could detect any flaw in the work, the cigars sorted under the rays from the Tungsten lamps were laid aside until the next day. A careful inspection of the lot under the natural rays of Old Sol failed to disclose a single mistake. The

work done the night before was pronounced perfect, and an order was immediately given for the wiring of the sorting room and the installation of Tungsten lamps.

When it is considered that this has never been accomplished in the past by any known artificial light, Columbia, Pa., consequently places herself in the lead in adopting progressive ideas.

The cigar industry is one of the last to awaken to the importance of utilizing a pure light. Stores, where articles of clothing or apparel are sold, have already adopted the Tungsten lights that their customers may select the dearest of shades at night without the disappointment of finding that the cloth looks altogether different the next day. After all, the matter of color is of primary importance for such classes of commercial work, even if the new lights do burn at a considerable economy over the old incandescent, considering twofold less current for a given amount of light and cutting down 75 per cent of the electric light bill. For even if these new lights did cost more to use, instead of less, they would be of priceless value where color is of signal importance.

## OBITUARY

**MR. NATHANIEL FINEGAN.**  
Mr. Nathaniel Finegan, one of the oldest and best known residents of Newark, died suddenly of heart trouble at his home, 61 Columbia street, at 11 o'clock Sunday night. He had been ailing for the past year but had been able to get up and attend to his business until the last. Sunday he complained of not feeling well but nothing serious was anticipated until shortly before his death.

Nathaniel Finegan was a son of Patrick Finegan, who was born in Ireland, but who came to the United States when quite young and was married to Miss Jane Gallagher, a native of Ireland, on September 22, 1830. Nathaniel was born at Elton, Md., on February 22, 1825, and on October 5, 1854, he was married to Miss Ellen McNamara, daughter of the late Patrick McNamara. From this union six children survive, being Mrs. George Lane, Mrs. William Hagan, Mrs. L. M. Meek and William Finegan, all of this city, John Finegan of Columbia, and Mrs. R. J. Moore of Pueblo, Col. Besides these ten grandchildren, a brother, Amos Finegan of Marshall, Pa., and a sister, Mrs. Sarah Carroll, of Cumberland, survive.

The deceased spent his early youth in Cumberland, Md., where he served his apprenticeship as a cabinet-maker, fresco artist and signer. He came to Newark in the early fifties and has lived here ever since.

He was a good soldier in the Union army during the civil war, having enlisted at Camp Chase, Columbus, in Company D, First Ohio Volunteer Cavalry, in Captain D. A. B. Moore's company, as a volunteer. After serving in this capacity for a time he was detailed as topographical draughtsman for the regiment on March 11, 1862, and served in that capacity until his discharge October 6, 1864. During his long service in the army he rode the same horse from start to finish, and had the reputation of being one of the bravest men in his company. At present a bill for his relief for services rendered as draughtsman is pending in Congress.

He was a member of Newark lodge N. 37, F. & A. M.

The funeral services are to be held Wednesday morning at 9 o'clock.

The death of Nathaniel Finegan is only another link in the chain that has been falling to pieces for several years most rapidly. In a short time there will be no more old soldiers of the civil war. The ranks are thinning and no new recruits are enlisting.

**HOWARD GRAY.**  
Howard Gray, aged 18 years, died at 3:30 o'clock Monday morning at the home of his stepfather, Mr. C. R. Shira, 44 Dewey avenue. The deceased had been ill but a week of pneumonia. He was employed as a brakeman on the Pennsylvania lines and was always popular with his road employees and his many friends here. He is survived by his mother, and one brother, Homer.

The funeral will occur Wednesday afternoon at 2 o'clock from the home No. 44 Dewey avenue.

**MRS. WALTER KINNEY.**  
On Sunday morning at 3:30 o'clock, Mrs. Opha E. Kinney, wife of Walter Kinney, died at the home of Mr. and Mrs. Clem Kinney, 561 West Main street.

Mrs. Kinney was aged but 21 years and seven months, and death came after several months' illness, during which time she was a patient and cheerful sufferer. Always numbering her friends among a large circle, her demise will be sadly mourned. She is survived by the husband, one brother, Raymond, of Columbus, two sisters, Mrs. John Evans and Mrs. Jackson Carter of Granville and one stepbrother, Mr. Harry Rexrothe of this city. A grandmother, Mrs. Samantha Hollinger of Granville, also survives.

The funeral services will be held at the Kinney home in West Main street, Tuesday afternoon at 2 o'clock. Rev. Joseph A. Bennett delivering the eulogy. The quartet of the Fifth Street Baptist church will sing. Interment will be made in Cedar Hill cemetery.

**JAMES SALISBURY.**  
James Salisbury, one of the oldest railroad engineers in northern Ohio and one of the oldest in the state, died at the Good Samaritan hospital, Sandusky, on Thursday morning, after an illness of about a week of pneumonia. He was an even-tempered, life and is survived by his wife, eight years old, and four children. He was the first person to die in the new hospital at Sandusky.

Mr. Salisbury took up railroad engineering when a mere youth, and ran his first engine over the Sandusky, Mansfield and Newark railway, now a division of the Sandusky and Newark division of the Baltimore & Ohio, in 1850. He was aboard the first train that passed over the line connecting the Mt. Vernon and Newark, and for a number of years was employed on the old Mad River road, running the last engine over the strap-iron tracks between Sandusky and Republic, through Bellevue.

The veteran roadworker was a charter member of one of the first lodges of the Brotherhood of Locomotive Engineers. He left the road in 1869, and took up his residence on a farm south of Ohio.

**MRS. EMANUEL SEITZ.**  
Mrs. Emanuel Seitz died at her home in St. Louisville Monday after a brief illness of apoplexy. She was aged 72 years.

The funeral will be held at the M. E. church, St. Louisville, on Wednesday at 2 o'clock standard time and interment will be in Evans' cemetery.

**CARD OF THANKS.**  
We wish to extend our most sincere thanks to our many friends, also the employees of the G. Edwin Smith Shoe Co., for their kindness

## Dish Cloths

Cheese cloths, unbleached cotton and heavy linen crash make most satisfactory dish cloths, and for cleaning greasy kitchen utensils, pot-rings are the easiest to use. One trouble with dish cloths is that they are hard to keep sweet, but they can be easily kept in good condition by washing occasionally in lukewarm water; to which has been added a tablespoonful of Gold Dust washing powder; then, cold, rinse and hang in the sunshine and fresh air to dry.

### Daddy's Bedtime Story—

Ducks Is Ducks, and Chicks Is Chicks

"NOW, Jack," said daddy, "you sit still, so Evelyn can hear my story about the little ducks inviting the little chicks to a play party. There were ten little ducks with the cutest yellow fuzz on their backs and twelve little chicks that were covered with fuzz not quite so yellow. Ducks, you must remember, have their toes joined together, so they can swim. But chickens' toes are divided, so they can't swim."

"Well, the ducks invited the chicks to a play party one day down by a little pond in the poultry yard. 'Can we go, mamma?' asked the little chicks of the fussy old hen. 'Yes,' said the hen mamma, 'but be very careful and don't go in the water.' So the chicks ran along with the ducks to the edge of the pond."

"They all played together for a little while, until the ducks got tired of the game on land. 'Let's all go in swimming!' cried one of the ducks. 'It's great fun, chicks!' 'I know it must be,' one of the chicks replied, 'for I've seen you in the pond, but our mamma said we mustn't, and she'd fuss at us when we get home if we did.'"

"Oh, ducks," said another little duck. 'Your mamma's too old and settled down to know what real fun is. Look there at our mamma. She likes to swim herself. She's in the water now. Let's all jump in and swim out to her!'

"All but the little chick that had remembered her mamma's orders waded into the pond where it was not deep enough to cover them, and the little ducks jumped right in and began to swim out to where their mamma was in the deep water. The good little chick ran right home and told her mamma what the other little chicks were doing. Old Mrs. Hen cackled loud and ran down to the pond. 'Cluck, cluck,' she called to her chicks. But some of them had got into deep water and couldn't get back to her."

"Mrs. Duck saw that they were about to be drowned, so she swam up to them, saying, 'Quack, quack!' which meant 'Climb up on my back and I'll give you a boat ride to shore.'"

"The little chicks were about to sink in the water, but Mrs. Duck dived down under them, and when she came up they were all safe on top of her back. She swam to the shore, and the chicks slid off her back. They were crying, 'Peep, peep,' which meant that they were badly scared. Old Mrs. Hen called to them, and they ran under her wings."

"But the little ducks, swimming around in the deep water, said 'Fraidy chicks, fraidy chicks' and laughed at them."

"That's all right," said Mrs. Hen, 'but ducks is ducks, and chicks is chicks.'"

## E. S. S. THE REAL CURE FOR SCROFULA

Scrofula is a blood disease manifested usually by an ulceration of the glands. It is almost entirely hereditary in its origin, being the seeds or drops of some specific blood poison which has been transmitted, in modified form, to the offspring of diseased parents. When the blood is specially vitiated Scrofula attacks other parts of the system beside the glands, and we see its effects frequently in weak eyes, poorly developed bodies, running sores and ulcers, skin diseases like scaldhead, catarrhal troubles etc. While the young are the usual sufferers from scrofulous troubles, it is true that it is sometimes held in check until middle life is reached, or passed, and then, as the physical system begins to decline, older persons are attacked by the disease. S. S. S. is the one real and certain cure for Scrofula. It is a blood purifier without an equal and it cures this destructive blood poison by removing the germs from the blood and so cleansing and building up the circulation that the disease can not remain. S. S. S. searches out every taint and impurity from the blood; it gives to the blood the richness and power necessary to the healthy growth of children, and it strengthens and invigorates the constitutions of older persons, by its fine tonic effects. S. S. S. is a purely vegetable medicine, perfectly safe for young or old. Scrofula being a blood disease can only be cured by a blood purifier like S. S. S. Back on the blood free to all who write and request it.

To Overhaul Car. The private car "Leota," of Barlow Bros. Minstrels, is on a Baltimore and Ohio siding near South Second street, and will be overhauled at the Jewett Car Works. The uniforms of the members of the company will be overhauled and cleaned at one of the Newark cleaning houses.

Serious Operation. The many friends of Mr. U. G. Hamilton will be sorry to learn that he was taken to the City Hospital Sunday evening and this morning underwent a serious operation. Drs. Stimpson and Barker officiating. Monday afternoon he was reported as resting very well with flattering chances of recovery.

Pear Trees Destroyed. In clearing the lot at the corner of South First and Spencer streets in preparation for the two new dwellings to be erected by Mr. W. H. Dearduff, two large pear trees, seven feet in circumference, were cut down. They were planted by the grandfather of the Wahlre Bros., Mr. Michael Maurata, about seventy-five years ago.

Electric Schedule to Change. With the installation of the new time table by the Ohio Electric Railway April 25, limited cars are to be run every two hours between Zanesville and Columbus. There will be seven limited cars a day.

Local cars will be run every hour to Columbus by way of Buckeye Lake, eliminating the change at Hebron. To enable Buckeye Lake visitors to get back early in the morning a local car will leave there at 5:05 for Columbus and one a little later for Newark.

### OUT OF THE BELLY OF HELL CRIED I

"I cried by reason of mine affliction unto the Lord, and he heard me; out of the belly of hell cried I" (Jonah 2:2.)

On the Mediterranean Sea, April 17.—We are not far from the place where poor Jonah long ago had his sad experience in his attempt to run away from the Divine commission to the Ninevites. We are nearing Jaffa, the port from which he sailed, then called Joppa. Some, intent on disproving as much as possible of the Bible, have attempted to make light of Jonah's experiences, claiming that there was no fish in the world of such capacity as could swallow a man entirely. We are to remember, however, that the Scriptures do not say that it was an ordinary whale that swallowed Jonah, but rather they specifically declare that God "specially prepared" a fish for the occasion. Nor is this all. We have our Lord's own testimony to the truthfulness of the matter, and whoever denies either his truthfulness or his intelligence is thereby denying also his Messiahship and repudiating him as a Savior, because neither a falsifier nor a dupe could possibly be recognized as the great Redeemer and Savior, the Sent of God, the Messiah.

Additionally our Lord informs us that the Jonah incident was in the nature of a type, especially designed of God to foreshadow the fact that Jesus himself would be dead for parts of three days and arise from the dead on the third day, even as Jonah was buried alive for parts of three days and on the third day the great fish vomited him upon dry land. There is nothing difficult about the narrative to one who has proper faith in God. To those who have not faith, nothing connected with Divine revelation is reasonable, commendable or satisfactory. Let us maintain our stand with those who hold fast to, and hold forth for others, the Word of Life.

The Belly of Hell Described.

But what have "the belly of hell" and the poor soul crying from it to do with the story of Jonah? And how does the story associate itself with our journey today over the Mediterranean Deep? Jonah was the man who was in the belly of hell and whose cry unto the Lord from there constitutes our text. When a boy I heard this text, and my imagination conjured up what hell would be like, and especially what the belly of hell, or what I supposed the middle part of it, would be like. I had the opportunity of looking into blast furnaces through what is called the glory-hole or peep-hole. There I noted that the center of the fire was at white heat. I tried to imagine people in such a condition in the very middle or belly of hell. I could not imagine how they could survive such an experience a single moment, let alone for all eternity. I sought theological expositions of the matter and learned that some theologians of the hour past, admitting the destructive effect of fire, claimed that God would specially vitalize all the poor creatures consigned to this torment, so that they would never die, but would keep on suffering forever and forever and forever, untellable tortures. I found that other theologians explained that those consigned to such a fiery ordeal would gradually become adapted to it and assume an asbestos-like shell which would measurably protect them from the fire. But these theologians went on to explain that, wishing them to suffer horrible tortures, God would scale off the asbestos shell, causing them to suffer still more excruciatingly every time the operation was performed. As a child I tried to imagine that this was the just desert of sinners, and that the Heavenly Father was really kind and loving—that he did not give them worse, though I could not think of anything worse that they could suffer.

"When I was a child, I spoke as a child; but when I became a man, I put away childish things" (1 Corinthians xiii. 11). I asked for the proof that anybody could endure such sufferings and yet live. I asked for the proof that our God is as unsympathetic as any devil could be. My mind rejected as irrational the whole proposition. I said: The God whom I shall worship must be a greater being than myself—greater than any human being, not only in power to execute his will, but also in wisdom to make a wise arrangement for his creatures, and also perfect in justice to do to him as he would have them do to him, if he were the creature and they the God. He must also be perfect in love, the noblest feature of any character. I said to myself, Such must be the God who was the Creator of our race, for he has produced in humanity certain degrees of these various qualities and he could not give to man what he does not himself possess, nor can we suppose that he would create man with more justice, wisdom, love and power than he himself possesses. To that great God I bowed my heart and mind and every power that I possess. To him I still

bow, and give thanks that by his grace I have come to see his character, his Plan and his Word more clearly than in the past. I thank him that now I can see in what way ultimately Jesus will be the "Light of the world"—not merely the Light of the Church (John viii. 12).

In abandoning the doctrine of eternal torment my disposition was to abandon the Bible also, because I believed that the Bible was the foundation of the irrational theory which had pictured God to my mind as a demon of the worst imaginable type. But, thank God, dear friends, the Lord heard my prayer for light, for knowledge respecting himself. After I had made a search of heathen creeds, as well as those of Christendom, and had found them all illogical, unreasonable, unsatisfactory, I turned to the Bible again, saying, Perhaps I have not done the Bible justice; perhaps I have unconsciously attributed to the Bible the teachings of the creeds. Perhaps I have read it through colored spectacles. Praying to God for guidance I took up Bible study in a very different way from previously. I began to study the Bible as I should have done at first—without reference to any of the creeds. I began to let God teach me. I ceased to say, "It reads, 'Thus,' but it must mean otherwise. It says, 'So and so,' but cannot mean that, but the reverse. In other words I ceased to try to teach God and endeavored to be taught of God through his Word, guided by his holy Spirit.

International Bible Studies.

That was thirty-eight years ago. Under the Lord's blessing I found the Key to the interpretation of the Scriptures—not because of ability, but, I believe, because it is now due time for the Bible to be understood—in the closing of this Gospel Age and the dawning of the Millennial Day. Having found the Key and used it myself I have spent my best endeavors since to put the Key into the hands of God's consecrated people the world over. I have nothing to boast of, dear friends, but have much to be glad for. First, I am glad on my own account with a joy unspeakable, that now I know my Heavenly Father and can have confidence in him and can have love for him, as never before. I am thankful that, to some extent, I have been enabled to convey similar joys, similar blessings, to others of his dear people of all denominations in all parts of the world. The Lord has gradually enlarged my opportunities year by year. I am not building a sect—not making a new denomination—not founding a Church! We have had too much of that sort of thing already. Not only have we Wesley's Church and Calvin's Church, etc., etc., but it has become the custom for each minister to be spoken of as the proprietor of the Church; as, for instance, The Reverend Dr. A.'s Church. It has become a custom, too, for the preachers to speak of the people as "My people," "My Church." This is all wrong. I wish to have neither part nor lot in it. I have no Church, and wish for none. There is but the one Church—the Church of Christ—"the Church of the Living God"—"the Church of the First-Born, whose names are written in heaven." That Church includes in its membership every true saint of God who trusts in the merit of Christ and seeks to walk in his footsteps. Whatever earthly systems such may be identified with are without Divine authorization. Their standing in God's sight is merely because of their identification with Christ as "members of his Body."

In God's providence I was led to publish six volumes of "Studies in the Scriptures," or Bible Keys. These were taken up by the Bible and Tract Society, and published at cost price, to enable all of God's people everywhere to procure them. They are now published in ten of the most prominent languages. The first volume, "The Plan of the Ages," has passed the three million mark. I have received not one cent of royalty. My life is a very simple one. My expenses are small. I accept no salary and take up no collections. Voluntary donations from those who have been blessed by my labors supply my needs and the surplus goes to the Bible and Tract Society for the general forwarding of its work—"The Promulgation of Christian Knowledge."

Each earnest Christian who obtains the assistance of these Bible Keys and enters into the treasures of God's Word and becomes rich himself in spiritual knowledge and in joy and peace of heart is glad to call the attention of others to the Bible Keys. Thus the International classes of Bible Students of all denominations in all parts of the world are springing up and a blessed light, we believe, is going forth from these, assistful to all who love righteousness and hate iniquity. Although I am the regular Pastor of the Brooklyn Tabernacle congregation, there are several assistants and I am privileged to speak to thinking Christians of various parts of the world, especially in the United States. Only the Lord knows how I thank him

for this gift of service, and for the still larger opportunity afforded me through the columns of some of the principal newspapers of the United States.

My sermons are handled by a Syndicate, and I am advised that now they appear in nearly five hundred newspapers, aggregating a circulation of six million copies, or, according to newspaper count, thirty million readers. All of these dear people of every denomination who do any thinking at all, I am sure have had similar difficulties in appreciating how our Heavenly Father could be a good Father, a good God, a loving Creator and yet provide for his human creatures such terrible destinies as all the creeds of the "dark ages" set forth. There is not a thinking Christian in the world who does not need the correct understanding of the Bible in order to be able to stand in the evil day that is upon us. All need to give heed to St. Paul's words, "Take unto you the whole armour of God, that ye may be able to withstand in the evil day, and, having done all, to stand" (Ephesians vi. 12). Our day is a blessed one in respect to its wonderful opportunities and privileges, but it is an evil one in the sense of being a time of great trial and testing of faith to Christendom.

Thinking minds are rejecting the doctrine of eternal torment and generally at the same time rejecting the Bible and denying that it is the inspired Word of God. These dear friends are stumbling into infidelity and think that Higher Criticism and Darwin's Evolution theory are new light. What they need is to see that the true light is in the Bible and that, wearing our grandfathers' spectacles, we inherited the Word of God and wrested it to our own injury and to the loss of our peace of mind and fellowship with the Father and with the Son and with the holy Spirit.

The Key to the Scriptures.

Whoever gets the proper understanding of our text has in his possession the Key to the Bible. If he will use it, passage after passage will open for him and the whole Word of God becomes a new and glorious revelation of Justice, Wisdom, Love and Power Divine. Jonah was in the fish's belly—he was buried alive. It is this that is referred to in our text. The words *hell-belly* signify *grave-belly* or *belly-grave*. The context shows all this, telling us additionally that sea-weeds were wrapped about the Prophet's head and that God heard his prayer and delivered him from the *hell-belly*, or *belly-grave*, on the third day by causing the fish to vomit him up. If you have a reference Bible note that in the margin there is a reference to the words of our text, saying, "Beware, the grave." Ah! says one, The translators merely made a mistake and translated it *hell* when they should have translated it *grave*. Yes, I answer, and they made the same mistake in every case in which they used the same word *hell* throughout the Old Testament. As it is, *hell* is translated *grave* more times than it is translated *hell* in our Common Version; but it should be translated *grave* every time. There we have the Key to the Bible. The hell of the Bible, the penalty for sin, is death, the grave, the tomb. It is not an everlasting hell, for special Scriptures declare that *hell* (hell) shall be destroyed. "I will ransom them from the power of the grave (*hell*); I will redeem them from death; O death, I will be thy plagues; O grave (*hell*), I will be thy destruction" (Hosea xiii. 14). St. Paul quotes this prophecy in conjunction with his great discourse on the resurrection. "O death, where is thy sting? O grave (*hell*), where is thy victory?" (1 Corinthians xv. 55).

We see, dear friends, what our dear Redeemer suffered on our behalf to release us from the penalty for sin. He did not go into *hell*, into *hell*, into the grave. "Christ died for our sins, according to the Scriptures" (1 Corinthians xv. 3). Thus God has provided for the resurrection of the dead—all mankind, "both of the just and of the unjust." The just are the Church, the saints. The unjust include all others. The blood of Jesus will avail for the release of every member of the race from the great penalty of death. Now it operates under a special call to the saintly few who are invited to become joint-heirs with the Redeemer in his great Kingdom which shortly is to bless all the families of the earth—not only those then living, but also all who have gone down to the tomb. The general resurrection will not be an instantaneous one, as in the case of the saints. It will be a gradual one in two senses.

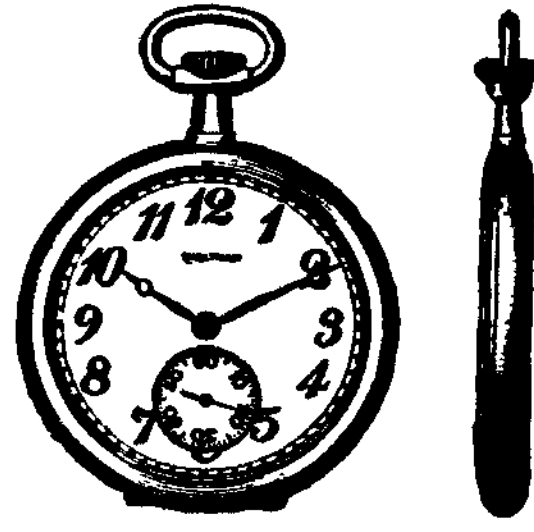

(1) All will not come forth at once, but, as the Apostle declares, "Every man in his own order," company or band (1 Corinthians xv. 23).

(2) It will be gradual in the sense that the awakening from the tomb will be but the beginning of the resurrection of the world. During the thousand years of Christ's reign all who will give heed to his instructions and assistance may rise gradually—up, up, up—and by the close of the Millennium they will reach the full perfection and image of God lost by Father Adam through disobedience. The unwilling, those rebellious after the light has fully come upon them, will be destroyed in the Second Death, from which there will be no recovery. They will perish as the brute beasts.

So, then, let us learn a lesson from Jonah's words, not forgetting the other lesson mentioned by our Lord when he declares that Jonah's experiences in the grave—the belly of the fish, and his release therefrom—foreshadowed his own experiences in the tomb and his resurrection in power and great glory on the third day.

## SHE WEDS MAN JUST 18 HOURS AFTER MEETING HIM

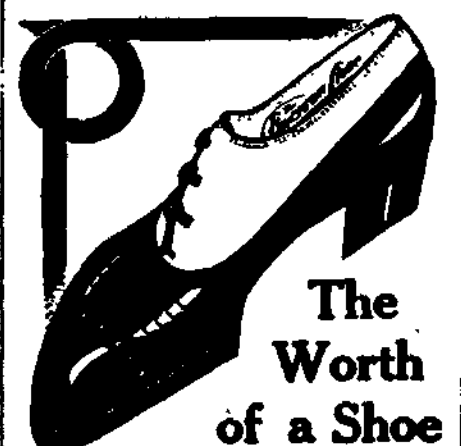

After an acquaintance of less than 18 hours, Mrs. Nettie Bowman, Frasersburg, became the bride of James Wright, aged 65, at Seymour, Ind., Friday. The couple heard of each other through a mutual friend and Mrs. Bowman went to Seymour, met Wright and in less than 18 hours they were married.

The following special dispatch from Laporte, Ind., tells the story: "James Wright, aged 65, of Seymour, Ind., and Mrs. Nettie Bowman of Frasersburg, O., were married Friday afternoon after an acquaintance of less than 18 hours. Mrs. Bowman went to Seymour, Ind., to meet Mr. Wright, each having heard of the other through a friend. It was a case of love at first sight and the romance had its climax in the marriage of the couple."

## Ten Amberol Records for \$1.00 If You buy the Attachment

These special Amberol Records are not for sale and will not be listed. They have been made for this special purpose. Go to any Edison dealer and hear them. Then you will realize what an Amberol attachment means to you. If there is no dealer near by, write us.

Edison Phonographs \$12.50 to \$25.00  
Edison Standard Records \$1.00  
Edison Amberol Records (play twice as long) 25c  
Edison Grand Opera Records 1.00 to \$2.00

National Phonograph Company, 75 Lakeside Avenue, Orange, N. J.

## Come In Today

and let us explain fully the plan whereby we give you the four minute records for \$1.00.

We also clean your machine and put it in perfect running order at no charge to you when we place the attachment. Mr. Edison is anxious to have an attachment on every machine, and we have been selected as one to place them for you.
